Create contracts, briefs and emails three times faster than typing

Reduce dependency on support staff with the help of speech recognition

Dragon® NaturallySpeaking® 10 Legal offers a faster, more efficient way for law firms and legal departments to create contracts, dictate briefs, and draft court documents or email messages. Turn your voice into text three times faster than most people type with up to 99% accuracy using virtually any Windows-based application, including the Microsoft® Office suite and most case management programs.

Create custom voice commands to instantly build and format templates for contracts or other legal documents or automate complex tasks on your computer with a spoken word or phrase. Dragon NaturallySpeaking 10 Legal includes a preconfigured legal vocabulary that includes more than 30,000 legal specific terms and phrases, and it even formats citations.

With Dragon, your hands are free to browse through briefs or consult notes while you speak commands and dictate text. Even better, you can use a Bluetooth® wireless microphone as an input device to get more work done without being tethered to your desk. You can also use a digital voice recorder for automatic transcription when you synch with a PC. Improved third-party correction features streamline the editing and correction process to dramatically decrease turnaround time and reduce dependencies on support staff.

Benefits

UP TO 99% ACCURATE AND THREE TIMES FASTER THAN TYPING

With Dragon NaturallySpeaking 10 Legal, you'll be able to complete contracts, briefs, and other deliverables up to three times faster than typing, and without waiting for support staff to transcribe your dictations. Need to get it done on the weekend? No problem. Dragon NaturallySpeaking 10 Legal never takes a vacation or sick day – it's there to let you work faster, 24/7! Dragon NaturallySpeaking never makes a spelling mistake, and it actually gets smarter the more you use it!

EASY TO USE

Dragon NaturallySpeaking installs quickly and gives the option to skip the initial reading used to provide a sample of your voice. New on-screen help and tutorials will make you an expert user in no time.

USE WITH THE APPLICATIONS YOU ALREADY HAVE

Use your voice to dictate, edit and control virtually any Windows application, including the full Microsoft Office suite, Microsoft Internet Explorer®, Mozilla® Firefox® and Corel® WordPerfect®.

INCREASE PRODUCTIVITY AND SIMPLIFY TASKS

Create custom voice commands to automate and streamline repetitive tasks that involve multiple keystrokes or mouse clicks. Streamline third-party correction.

DRAGON VOICE SHORTCUTS TO SEND EMAIL, SCHEDULE MEETINGS OR SEARCH THE WEB AND DESKTOP

Use Dragon Voice Shortcuts to quickly search for information on the Web or on your own computer. For example, say "Search Web for financial management resources," "Search Wikipedia for speech recognition," or "Search eBay for Bluetooth headsets." You can even say "Find email about the Robinson report" to quickly locate information on your computer. You can also simply say, "Send email to Services Group," and Dragon will create a new email and put the names you said into the "To:" box. Or say, "Schedule a meeting with Steve Chambers and Raphael Sanchez," and Dragon will do the rest.

ENTERPRISE READY

Includes user profile management and security features for enterprise deployments, as well as support for roaming users (who dictate at more than one PC) and for Citrix environments.

BLUETOOTH WIRELESS SUPPORT

Use Dragon NaturallySpeaking with Nuance-approved Bluetooth headsets.

MOBILE

Dictate into any Nuance-certified handheld device for automatic transcription when you synch with your PC.

HANDSFREE AND ACCESSIBLE
